- Core CCNA
- VMware
- MYSQL
- HTML
- Maria DB
- Apache/Samba Server
- Microsoft office

Experience

- ITSR in Worldlink Communication Pvt.Ltd for 6 months.

College Projects

- Major project (8th semester) is based upon" Online Services for Businesses with POS" (work in progress). It is basically a content/record management system for various businesses with an online platform to manage and maintain transactions and inventories. It will also contain a basic e-commerce service for clients as well. We have plans to integrate the system with data-analysis and predictions/presentation modules if possible.

- Minor project (6th semester) was based upon" Citizen Information Management System" that dealt with a web-based application where various information about citizens could be maintained and viewed. This type of system would be extremely helpful to access records about a Citizen.

Events Participation

- Python Basics Course (February 10th, 2016, 10 lectures).

- Seminar on Virtual Reality (18th May 2017, Kathmandu University).

- Tech Bihani 3.0(organized by ACEM-PACE) as a volunteer.

- SET Conference (November 19, 2016) (organized by ACEM).

- National Robotics Competition (19th December, 2015) organized by RAN.

Selective Interests

- Playing football.
- Quality time with friends.
